SITUATION SUMMARY

Governor Brown Declares State of Emergency in California to Bolster Wildfire Response

- With wildfires burning across the state – exacerbated by severe drought conditions and extreme weather – Governor Edmund G. Brown Jr. declared a state of emergency in California to help mobilize additional firefighting and disaster response resources.
- “California’s severe drought and extreme weather have turned much of the state into a tinderbox,” said Governor Brown. “Our courageous firefighters are on the front lines and we’ll do everything we can to help them.”
- See link for the full text of the proclamation: <http://gov.ca.gov/news.php?id=19053>

SOC Activation for California Wildfires

- The State Operations Center (SOC) is activated at Level 3 from 0500-2100 hours today due to the wildfires burning throughout California.
- The Coastal REOC is activated at Level 2.
- The Inland REOC is activated at Level 1.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- [Yuba County Drought Continuance Resolution received dated 07/21/15](#)

Weather of Concern

- [Fire Weather is still a concern for mainly northern California as scattered showers and isolated thunderstorms continue through Friday.](#)

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A weak upper level system will bring isolated afternoon and evening inland thunderstorms through Tuesday. Weak ridging will bring dry conditions Wednesday and Thursday with another system Friday into the weekend bringing additional showers and thunderstorms.

Medford Weather:

Another stronger shortwave will move up from the south Tuesday. This will bring flow aloft back to southerly, which will allow another surge of monsoonal moisture into the area. At this time, expect isolated thunderstorms from the Cascades east and Siskiyou's south. Once that wave clears out to the east Tuesday night into Wednesday morning, westerly flow aloft will move in. This will bring in cooler temperatures and drier air. Some thunderstorms may persist over the far east side early in the afternoon, but the air mass will continue to stabilize from west to east and those storms will dissipate by evening. Wednesday will be the coolest day of the week. Thursday will be dry, but warmer as a ridge noses in from the southeast.

Reno Weather:

Decreasing moisture is expected to keep thunderstorms isolated overnight, waning to areas well north of Interstate 80 Tuesday. Thunderstorm chances return on Friday as low pressure approaches the Sierra and western Nevada. Afternoon temperatures will remain around average this week.

San Francisco Weather:

Subtropical moisture moving in from the southwest may result in isolated showers and thunderstorms on Tuesday, mainly over the San Francisco Bay Area, and particularly in the North Bay. Mild temperatures are forecast to continue through Tuesday before a modest warming trend is expected Wednesday and Thursday as high pressure builds across the region. Isolated showers and thunderstorms may also occur late in the week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Cooler weather expected this week with temperatures below average for early August through Wednesday. There will be a slight chance of mainly mountain thunderstorms Tuesday and Friday.

Hanford Weather:

A gradual cooling trend will take place over central California through Tuesday. A subtle warming trend will begin on Wednesday and continue into Thursday. A weak low pressure system will bring another cool down for the weekend, with a few thunderstorms possible over the High Sierra Friday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Weak high pressure building over the southwest will bring a slight warm up for midweek, then a dry trough of low pressure off the coast will push east through the area late in the week for a cooling trend. Temperatures will remain mainly below normal with overnight to morning coastal clouds and fog persisting into the weekend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

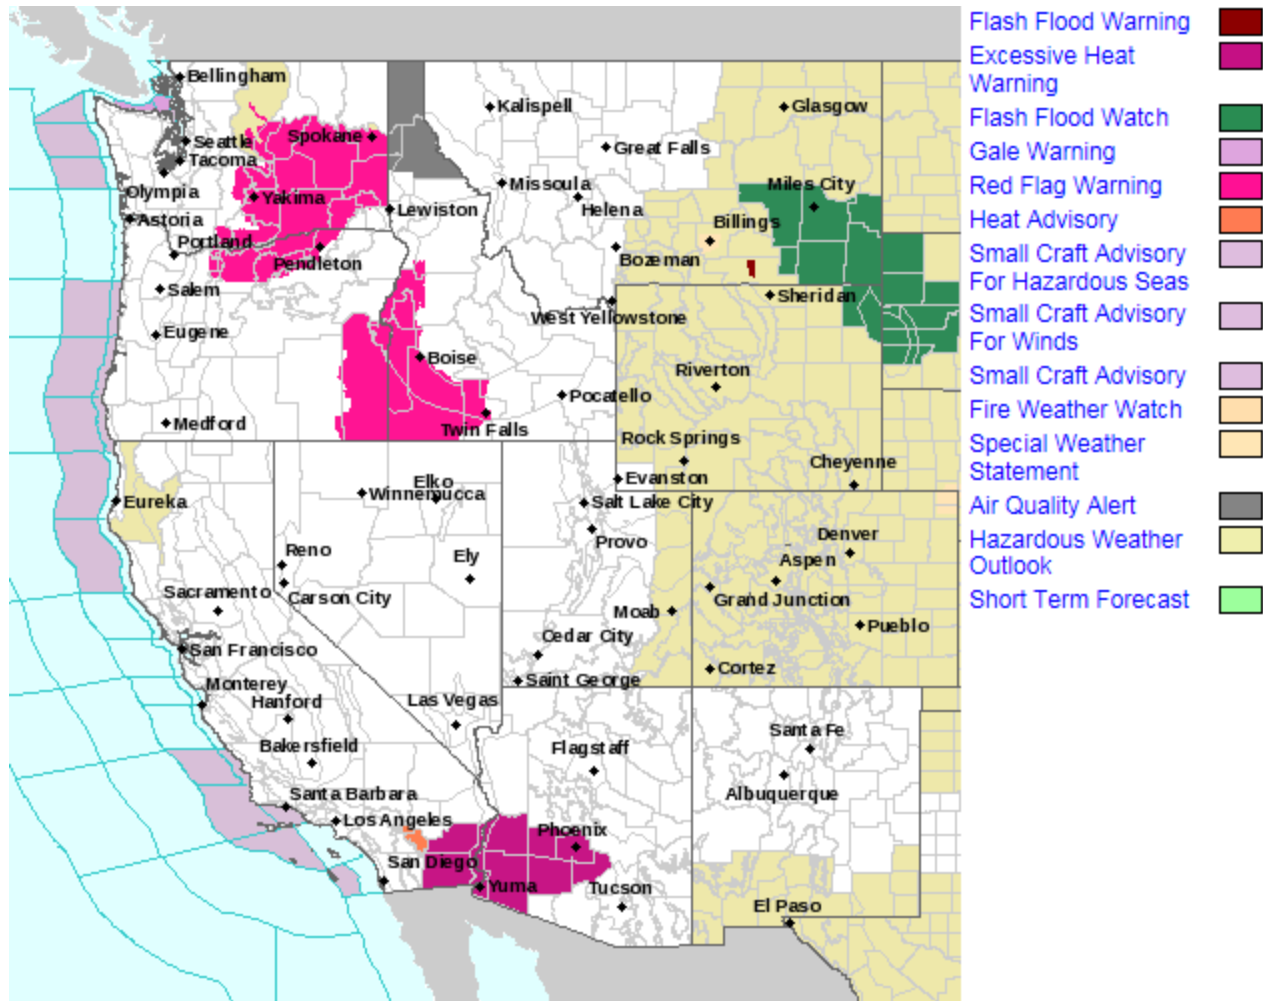

High pressure strengthening over the southwest will bring hot days inland through midweek, while a shallow marine layer keeps coastal areas more moderate with periods of night and morning low clouds and fog. A trough of low pressure will bring cooler weather, a deeper marine layer, and more extensive marine clouds for the latter half of the week.

Southeast California Weather:

Expect dry and seasonal conditions to continue through Thursday followed by a brief return of moisture and a chance of thunderstorms over the eastern portions of the forecast area on Friday. Dry conditions and slightly cooler weather is expected over the weekend.

OF EMERGENCY SERVICES

SITUATION SUMMARY

NOTE: Detailed Fire Information will be reported in a Cal OES/Cal Fire Joint Report daily at 0930 hours and 2000 hours

FIRES, NORTHERN OPERATIONS AREA

Active

- Fork Complex, Vegetation Fire, Trinity County
- Frog, Vegetation Fire, Modoc County
- Humboldt LCA, Vegetation Fire, Humboldt County
- Lowell, Vegetation Fire, Nevada County
- Mad River Complex, Vegetation Fire, Trinity County
- River Complex, Vegetation Fire, Trinity County
- Rocky, Vegetation Fire, Lake County
- Wragg, Vegetation Fire, Napa and Solano and Yolo Counties
- Deer Horn #2, Humboldt County

Finaled

- Swedes, Vegetation Fire, Butte County

New

- Dodge R-1, Vegetation Fire, Lassen County
 - 1,500 acres, 0% contained
- Francis, Vegetation Fire, Yuba County
 - 50 acres, 0% contained

SITUATION SUMMARY

NOTE: Detailed Fire Information will be reported in a Cal OES/Cal Fire Joint Report daily at 0930 hours and 2000 hours

FIRES, SOUTHERN OPERATIONS AREA

Active

- Big Creek, Vegetation Fire, Tuolumne County
- Cabin, Vegetation Fire, Tulare County
- Rough, Vegetation Fire, Fresno County
- Willow, Vegetation Fire, Madera County

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Recovery/Individual Assistance provided an initial 1,000 copies of the 2015 Drought Brochure to DWR for distribution at the State Fair beginning Friday, July 10, 2015. DWR requested an additional 1,000 copies of the brochure. This subsequent order was completed and delivered on July 21, 2015.
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

MGT-347 NIMS Incident Command Systems Forms

Description

Learn about and use the most common Incident Command System (ICS) forms. The course will prepare you to work with the ICS Forms used in the Incident Command Planning process to assist in the development of an Incident Action Plan (IAP).

You will be introduced to the forms and will practice how to develop and write effective objectives to manage an expanding all-hazards incident. The course will allow you to learn and experience the benefits of using the forms in responding to emergencies or managing planned events.

Prerequisite

IS-100.b, FEMA Introduction to the Incident Command System (ICS-100)
IS-200.b, FEMA Incident Command System for Single Resources and Initial Action Incidents, ICS-200
IS-700.a, Introduction to the National Incident Management System (NIMS)
IS-800.b, National Response Framework (NRF), An Introduction

Date: August 11 & 12, 2015 **(2 sessions each day)**

Time: 8:00 am – 12:00 pm / 1:00 pm – 5:00 pm

Location: Governor's Office of Emergency Services
10390 Peter A. McCuen (California Training Room)
Mather, CA 95655

No Cost!
(Limited Seats)
